Fraud Credit Check

To make sure you get the best offer from insurers, now or at any renewal or at any time and to protect their customers from fraud and to verify your identity, they may use publicly available data, which they obtain from a variety of sources including a credit reference agency and other external organisations. Their search may appear on your credit report whether or not your applications proceed. As well as these searches insurance companies may use a credit check to ascertain the most appropriate payment options for you. This credit check will also appear on your credit report whether or not your applications proceed. If you do not wish for this check to take place then please inform us as soon as possible.

Your responsibility

You are responsible for providing complete and accurate information which insurers require in connection with any proposal for insurance cover. This is particularly important before taking out a policy and at renewal, but it also applies throughout the life of a policy. If you fail to disclose information, or misrepresent any fact which may influence the insurer’s decision to accept the risk or the terms offered, this could invalidate the policy and mean that claims may not be paid. You must check proposal form or statement of facts and pay particular attention to any declaration you may be asked to sign.

It is important that you read all insurance documents issued to you and ensure that you are aware of cover, limits and other terms that apply. Particular attentions must be paid to any warranties and conditions as failure to comply with them could invalidate your policy
